PROFESSIONAL PROFILE

Logistics and supply chain professional with 24 years of Pakistan Air Force service, including supervisory responsibility at Assistant Warrant Officer level. Experienced in procurement, inventory control, warehouse operations, stores accounting and technical spares. Combines ALMS experience and team supervision with practical digital portfolio projects for logistics reporting, quotation analysis and stock reconciliation.

CORE EXPERTISE

Procurement & material coordination | Inventory & stock control | Warehouse & stores operations | Aircraft & electronic spares | Receipt, storage & issue | ALMS reporting | Stock reconciliation | Team supervision

PROFESSIONAL EXPERIENCE

Pakistan Air Force | 1999 - March 2023

Assistant Warrant Officer - Logistics & Supply Chain

- Managed procurement, inventory control, storage, issue and accounting of aircraft spares, electronic components, POL products and textile-store items.
- Used the Automated Logistics Management System (ALMS) for stock records, material tracking, reporting and logistics administration.
- Coordinated receipt, inspection, storage and issue of materials while maintaining accurate documentation and accountability.
- Monitored stock positions, reconciled records and supported timely material availability for operational requirements.
- Supervised logistics and stores personnel, allocated duties and supported staff training and procedural compliance.
- Maintained operational records and handled accountable documentation in a disciplined aviation-support environment.

EDUCATION & PROFESSIONAL DEVELOPMENT

Diploma in Logistics (Basic & Advanced) - Formal preparation in supply procedures, inventory control and stores operations.

ALMS training - Logistics refresher and enterprise-version training in computerized stock control, material tracking and reporting.

Leadership development - JCO trade training and Military Leadership & Command courses supporting team supervision and operational coordination.

Digital development - Python and GIS training; continued self-directed learning in Power BI and data reporting.

Secondary School Certificate (Science) - BISE Sargodha, 1995.

DIGITAL LOGISTICS PORTFOLIO

Practical tools that demonstrate operational understanding.

Logistics Operations Dashboard

Python | Streamlit | Supabase

Interactive portfolio system for fleet and dispatch visibility, technical-spares inventory, reorder alerts, maintenance, finance and gate-pass workflows. Includes role-based access and a fictional-data demonstration mode.

Demonstrates operational reporting, material visibility and workflow coordination.

Procurement Quotation Analyzer

Supplier comparison | Cost evaluation

Compares supplier quotations using unit price, discount, tax and freight. Applies delivery and warranty requirements, with configurable weighted scoring and CSV comparison reports.

Demonstrates transparent quotation evaluation and procurement decision support.

Warehouse Stock Audit

Stock reconciliation | Adjustment records

Compares recorded stock with physical counts, distinguishes pending counts from zero stock, and reports shortage and excess values. Records adjustments with reasons and before/after quantities.

Demonstrates inventory accuracy checks, traceable working records and reporting.

Warehouse SOP Training

English / Urdu | Staff learning

Provides receiving, stock-count and controlled-issue lessons with practice checklists, knowledge checks and browser-saved learning progress. Supports local playback of the user's own training recordings.

Demonstrates practical procedure communication and staff-training support.

DIGITAL TOOLS

ALMS | MS Office & Excel | Python | Streamlit | GitHub | GIS

Power BI - continued professional learning

SERVICE RECOGNITION

Tamgha-i-Istaqlal | Tamgha-i-Azm | 10 Years Service Medal | 20 Years Service Medal | Shaabaash Certificate | Diamond Jubilee of Pakistan recognition

The digital projects are portfolio demonstrations using sample data. They complement professional logistics experience and are separate from prior Pakistan Air Force systems.
