PROFESSIONAL PROFILE

Logistics and supply chain professional with 24 years of Pakistan Air Force service, including supervisory responsibility at Assistant Warrant Officer level. Experienced in procurement, inventory control, warehouse operations, stores accounting and technical spares. Combines military ERP experience (ALMS and ALMS-Ev) and team supervision with practical digital portfolio projects for logistics reporting, quotation analysis and stock reconciliation.

CORE EXPERTISE

Procurement & material coordination | Inventory & stock control | Warehouse & stores operations | Aircraft & electronic spares | Receipt, storage & issue | Military ERP: ALMS & ALMS-Ev | Stock reconciliation | Team supervision

PROFESSIONAL EXPERIENCE

Pakistan Air Force | 1999 - March 2023

Assistant Warrant Officer - Logistics & Supply Chain

- Managed procurement, inventory control, storage, issue and accounting of aircraft spares, electronic components, POL products and textile-store items.
- Used ALMS (Automated Logistics Management System) and ALMS-Ev, military ERP systems, for inventory control, material tracking and logistics reporting.
- Coordinated receipt, inspection, storage and issue of materials while maintaining accurate documentation and accountability.
- Monitored stock positions, reconciled records and supported timely material availability for operational requirements.
- Supervised logistics and stores personnel, allocated duties and supported staff training and procedural compliance.
- Maintained operational records and handled accountable documentation in a disciplined aviation-support environment.

EDUCATION & PROFESSIONAL DEVELOPMENT

Diploma in Logistics (Basic & Advanced) - Formal preparation in supply procedures, inventory control and stores operations.

Military ERP training - ALMS refresher and ALMS-Ev enterprise-version training in inventory control, material tracking and reporting.

Leadership development - JCO trade training and Military Leadership & Command courses supporting team supervision and operational coordination.

Digital development - Python and GIS training; continued self-directed learning in Power BI and data reporting.

Secondary School Certificate (Science) - BISE Sargodha, 1995.

DIGITAL LOGISTICS PORTFOLIO

Practical tools that demonstrate operational understanding.

Explore all projects: <https://muhammad-naveed-bhatti.github.io/>

Logistics Operations Dashboard

Python | Streamlit | Supabase

Fleet and dispatch visibility, technical-spares inventory, reorder alerts, maintenance, finance and gate-pass workflows, with role-based access and a sample-data demo.

Procurement Quotation Analyzer

Supplier comparison | Cost evaluation

Supplier quotation comparison covering price, discounts, tax, freight, delivery and warranty requirements, with weighted scoring and CSV reports.

Warehouse Stock Audit

Stock reconciliation | Adjustment records

Physical-count reconciliation, shortage and excess valuations, pending-count checks and traceable adjustments with reasons and before/after quantities.

Warehouse SOP Training

English / Urdu | Staff learning

Receiving, stock-count and controlled-issue lessons with checklists, knowledge checks, saved progress and local playback of training recordings.

AI-Powered Retail Surveillance

Python | YOLO | OpenCV | Streamlit

Retail monitoring prototype with YOLO tracking, configurable zones, incident snapshots and review-event analytics. Events require human review.

Supplier Catalogue Collector

Python | Windows desktop | CSV export

Collects public product details, listed prices, source links and timestamps into an Excel-ready CSV to support supplier sourcing research.

DIGITAL TOOLS

Military ERP: ALMS & ALMS-Ev | MS Office & Excel | Python | Streamlit | GitHub | GIS
Power BI - continued professional learning

SERVICE RECOGNITION

Tamgha-i-Istaqlal | Tamgha-i-Azm | 10 Years Service Medal | 20 Years Service Medal | Shaabaash Certificate | Diamond Jubilee of Pakistan recognition

The digital projects are portfolio demonstrations using sample data. They complement professional logistics experience and are separate from prior Pakistan Air Force systems.
